- Included Accessories: 2 x AAA Batteries, Remote Control, Full SCART cable, Quick start guide, User Manual, Antenna cable, Interconnect cable, IR Blaster

Dimensions
- Product dimensions (WxDxH): 435x340x67mm
- Weight incl. Packaging: 6.5 kg

Power
- Power consumption: 42 W
- Power supply: 220-240V, 50Hz
- Standby power consumption: 7

Product highlights

Integrated Freeview tuner

File transfer: HDD, DVD, USB
Thanks to the complete file transferability, you can transfer or copy your multimedia files from one source to another regardless of whether the files are stored in the recorder HDD, on a DVD disc or on your USB flash drive.

HDD Media Jukebox
Create your very own digital media jukebox right in your living room. Transfer MP3, WMA, MPEG2, DivX, DivX Ultra, Xvid, JPEG and HD JPEG files quickly and conveniently onto the recorder's built-in hard disk - from USB thumb drives, portable media players, digital cameras and even some AV devices. Play back your favourite movies, music or photos on your TV or home theatre system any time you want. The options are endless, as will be the enjoyment.

Guide Plus+ on-screen TV guide
GUIDE Plus+ is an Electronic Programme Guide – a free on-screen TV Guide that shows what's on TV for the next couple of days and lets you program the timer of the DVD Recorder with the push of a button.

True high-def HDMI 1080p
HDMI 1080p upscaling delivers images that are crystal clear. Movies in standard definition can now be enjoyed in true high definition resolution - ensuring more details and more true-to-life pictures. Progressive Scan (represented by "p" in "1080p") eliminates the line structure prevalent on TV screens, again ensuring relentlessly sharp images. To top it off, HDMI makes a direct digital connection that can carry uncompressed digital HD video as well as digital multi-channel audio, without conversions to analogue - delivering perfect picture and sound quality, completely free from noise.

One Touch Pause Live TV
Pause Live TV puts you in absolute control. Once the recorder is turned on, a large built-in memory automatically starts recording the programme you are watching – allowing you to pause, replay or save the programme, any time. If you need to take a break, you can pause your 'live' TV programme with just one touch of a button, and resume watching when it suits you.
